https://github.com/MalickMuzamil | https://muzamil-saleem.vercel.app/

Full Stack Developer experienced in building scalable web applications using Angular, Next.js, Node.js, and Express.js. Skilled in REST API development, SaaS platforms, and enterprise dashboards with responsive UI and optimized backend architecture. Experienced in logistics systems, CRM platforms, and job portals with focus on performance, clean architecture, and maintainable code.

Technical Skills

Frontend: Angular, React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS
Backend: Node.js, Express.js, REST API Development
Database: MongoDB, MySQL, SQL
Tools: Git, GitHub, Bitbucket, Postman, Vercel, CI/CD
Other: Responsive Design, SaaS Applications, REST APIs

Experience

PostEx Nov 2025 – Present

- Launched an internal back-office platform to manage logistics shipments and support operational workflows.
- Built REST APIs using Node.js and Express enabling real-time data updates across internal systems.
- Collaborated with cross-functional teams to deliver production-ready features used by operations teams.

Team Seven (Pvt) Ltd July 2023 – Nov 2025

- Designed responsive landing pages with HTML, CSS, Bootstrap, and Angular to enhance user engagement.
- Developed full-stack web applications and managed source code using Git for collaborative development and version control.
- Improved UI responsiveness and cross-browser compatibility for multiple client landing pages.

LitGrey Technologies June 2025 – Oct 2025

- Optimized a CRM SaaS application by building frontend features and connecting RESTful APIs for dynamic data handling.
- Built responsive Angular components and collaborated on troubleshooting and optimization for a seamless user experience.
- Architected modular UI components to improve dashboard scalability and maintainability.

Projects

Executive Dashboard **Admin Dashboard**

- Engineered operational dashboard using Next.js and Tailwind CSS for internal monitoring.
- Deployed **WebAuth-based authentication system** for secure access control.
- Connected frontend with backend services enabling **real-time data flow and API communication**.

Tools & Technologies:

Next.js, Tailwind CSS, Node.js, MySQL

EverGreen Sable **EverGreen**

- Delivered a modern web app using **Next.js** and **Tailwind CSS** with smooth, responsive UI animations powered by **AOS.**
- Established real-time **CSV export** and dynamic Excel Sheet integration for automated, live data updates.
- Optimized UI performance and improved data handling for smoother user interaction.

Tools & Technologies:

Next.js, Tailwind CSS, AOS, CSV Export, Excel Integration

Yanbu International Job Portal Application **Yanbu International**

- Delivered a Gulf-region job portal aggregating listings and providing centralized access to opportunities.
- Added Arabic–English multilingual support and merged RESTful APIs for real-time job updates.
- Built responsive job listing interfaces improving accessibility across desktop and mobile devices.

Tools & Technologies:

Angular, Bootstrap, REST API's, Multilingual System

Opticians (CRM, eStore Registration System) **Opticians.pk**

- Created a full-stack app integrating CRM, eStore, and Registration System with secure authentication.
- Enhanced a responsive Angular Bootstrap frontend and delivered a scalable, modular architecture for enterprise use.
- Implemented backend services and database integration to manage user registration and CRM data efficiently.

Tools & Technologies:

Angular, Java, SQL, Bootstrap

EDUCATION

Superior University Gold Campus, Lahore

Bachelors in Computer Science *2021 – 2025*
